

Context: Janet and James had Aunt Mary and Uncle Wayne and the Grandparents, Bess and the Judge to the walk-up, somewhere around 39th. It may still be there. James Greg was an infant. I don't see an envelope to confirm the date. It may pop up, amid the midden.

Dear Janet:

We surely do thank you for a perfect day Thursday. You were so sweet to have Wayne and me there with you. You are a wonderful cook and don't you ever take a back seat when cooks get together to brag. You just stay in there and pitch the recipes with (page 2) the best.

Seriously, I want to thank you most of all for sharing your dear little boy in such a sweet way with his grandparents. For you to realize what he does mean to them and for you to let us all have so much pleasure in him. Must be just part of your generous nature. He is a beautiful child, thanks to you and Jim being good looking, and well and strong, thanks to your around the clock care.

We really liked your place and see Jim interested in every stick of furniture and every stitch you take to make it like you want.

Thank you again for having us. We think Jim is very bright to have won you.
